

Homework Help

Homework Help is a live, interactive math program established by the Ministry of Education's Independent Learning Centre. Every Sunday to Thursday, from 5:30-9:30 p.m., students will be able to enter a live chat room, choose a tutor and type in a mathematical question. The teacher and student will then communicate live, one-on-one, using the chat pod and an interactive whiteboard. Others will be able to observe and learn from the live chat.

Help will be available for Grade 7s-10s outside the live chat times as well. The website – www.homeworkhelp.ilc.org – also will have permanent lessons and activities posted for students and parents to access at any time. Tutorial videos, written resources and activities are posted permanently.

Every school is sending home information with Grade 7-10 student report cards, including details on accessing the Homework Help website. Students will need their Ontario Education Number (OEN), which appears at the top of their report card, the first time they use Homework Help.
