

# Specialized Pathways Programs in Kawartha Pine Ridge District Schools

2011 - 2012

▶ **Specialist High Skills Major**

A program of senior courses, work experience, certification, reach-ahead experience and skill building focused on a specific education and employment area. Students receive a Special Designation on the graduation diploma.

▶ **Articulation Programs**

These are partnership programs with community colleges which provide students with opportunities to participate in a variety of college experiences related to a program of interest. They often involve team teaching and a shared use of school facilities.

▶ **Dual Credit Programs**

These are programs in which senior students can earn both secondary school and college credits simultaneously. These programs always involve a teacher from the secondary school and teachers from the college programs.

▶ **Advanced Placement**

The Advanced Placement Program is a program that offers university level preparation courses at high schools across the United States and Canada.

▶ **Specialized Arts**

Specialized arts programs consider one or more areas of the arts as a major instructional focus.

▶ **International Baccalaureate**

The International Baccalaureate Program is a challenging two-year program of international education for students aged 16 to 19.

▶ **Centre for Individual Studies**

The Centre for Individual Studies provides a dynamic educational experience in a flexible environment where students and staff together pursue their quest for life-long learning in an atmosphere of cooperation, dignity and mutual respect.

Programs include: Credit courses, Literacy and Basic Skills, dual credits, co-operative education.

▶ **OYAP - Ontario Youth Apprenticeship Program**

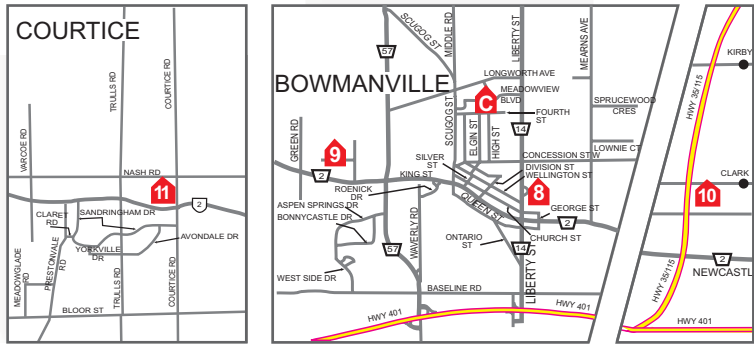

OYAP is a school-to-work program that opens the door for students to explore and work in apprenticeship occupations in grades 11 and 12.

Although the Kawartha Pine Ridge District School Board strives to provide students with the opportunity to choose from a wide breadth of programs, the availability of classes and/or programs in any subject is dependent on interest and enrolment.

Where student numbers are not sufficient, schools may be unable to offer courses and programs or may need to do so by combining classes, grades, levels and even subjects.
